The Marionette

VOLUME EIGHT

NINETEEN HUNDRED THIRTY

PUBLISHED BY

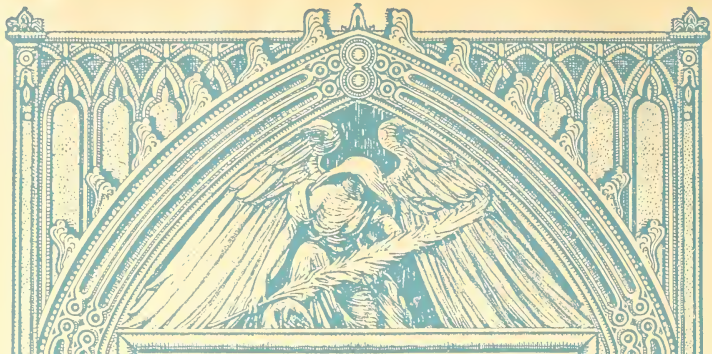
THE STUDENT BODY OF MARION COLLEGE

MARION, INDIANA

TO Henry A. West, Acting President of Marion College, whose ability as an executive has been such a great force in upbuilding the institution, whose teaching has been a pleasure to many, whose Christian character and exalted ideals have been an inspiration and cause of uplift to all, whose sympathetic kindliness has made him a true friend to both students and faculty, this eighth volume of the Marionette is affectionately dedicated.

Dedication

Henry A. West



SINCE Marion College, as an institution of the Wesleyan Methodist Church, adheres to and strives to inculcate the beliefs of Christianity as set forth by John Wesley, we have chosen as the theme of the 1930 Marionette the life of this hero of "The Faith." Four phases of his life are pictured by the art work of the division pages: first, the executive; second, the student; third the ministerial; and fourth the recreational. May this pictorial view of the founder of Methodism strengthen the veneration which we cherish for him and his teachings, and may each who leaves this institution cherish the ideals which he represents.

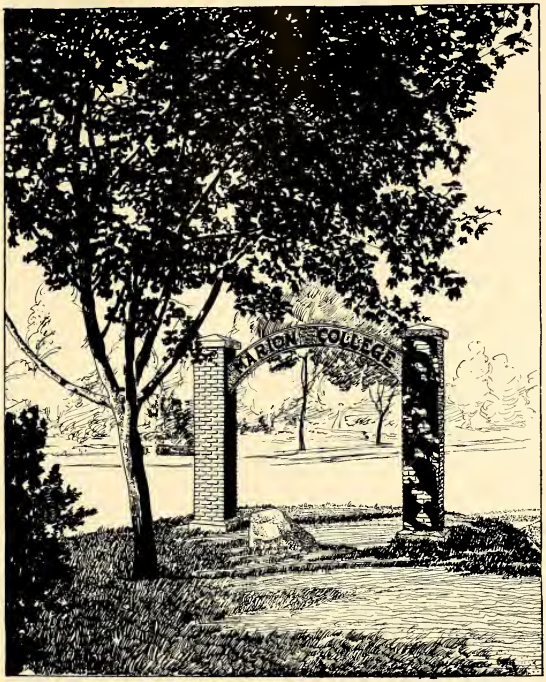
FEATURES

Order of Books

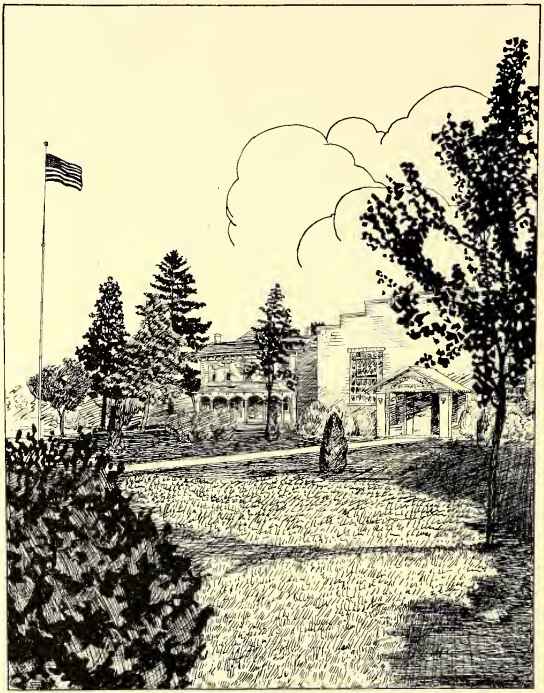


It pleaseth fair Minerva to impart
Rich gifts to all who pass beneath this Arch.
J. R. '30

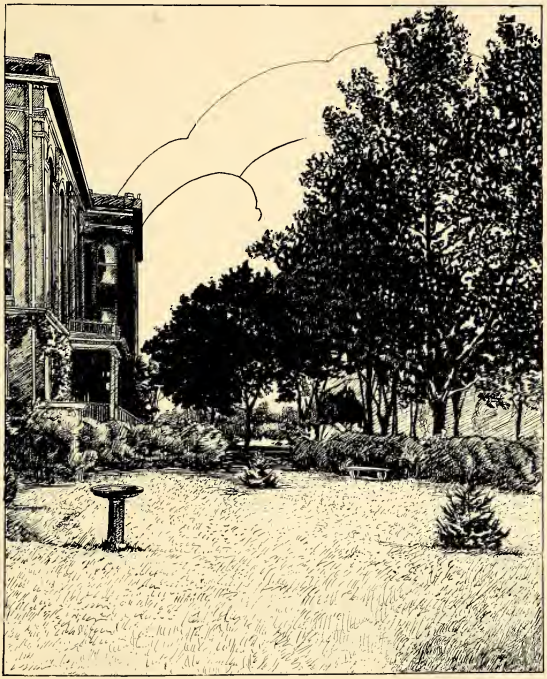
The souls of youth, where hope eternal springs
Embrace that culture, once the breath of kings.

J. R. '30

Those trifling cares must go their several ways
Each morn, when chapel voices hymn His praise.
J. R. '30



Where sportsmanship is always at its best,
Where many a wholesome challenge youth accepts.
J. R. '30



Here, nature's genial aspect intimates
That Heaven did man a social being create.
J. R. '30

When a full moon 'mong the stars parades,
Then boys 'tis time for a serenade.

MUSIC AND SPEECH

Homer.
"Once upon a time. — — — — — —
— — — — — —

Music

"MUSIC IS THE SERVANT of everything good, and belongs to the great sisterhood which labors in any and in every form to improve, educate and refine humanity." Good music is the connecting link between our inner and outer lives. Music does and must take a high place in the cultural life of any college.

IVETTA V. REDIGER, Music Graduate

The Marion College School of Music is constantly growing and steadily expanding under the efficient leadership and guidance of Miss Cornelia Dungan, who is a graduate of the Chicago School of Music. She is the head of the vocal department and has charge of the Public School Music courses. Miss Dungan has a fine group of vocal students who are accomplishing great things in the musical field.

Mrs. Gretchen Thomas Parker, of Marion, Indiana, is the professor of piano, pipe-organ, harmony and music history. Mrs. Parker is a graduate of the Bush Conservatory of Music and is an accomplished musician. She has a large class of piano students who are doing excellent work under her direction.

The Chorus, of fifty voices, has given two excellent programs. At the Christmas season a pageant was presented carrying the theme of "Christmas In Various Lands." On May the seventh, as the last number of the Music Lecture Course, the sacred cantata, "Hymn of Praise" by Mendelssohn was well received.

Every two weeks private recitals are given providing the students with the opportunity to appear on programs. Students realize a great benefit from all these phases of development. During Commencement week a student recital was given in which the best talent of the School of Music was presented.

Marion College School of Music is offering a four-year course which leads to a Bachelor of Music degree. All public school music courses are offered. There is also an extensive course in appreciation of music. With all these courses and good teachers the School of Music offers distinct advantages to its students.

Marion College has recognized the importance and place of good music. It has incorporated all the larger and finer things in its curriculum which leads one to have an appreciation for the good and the beautiful.

The graduate from the department this year is Miss Ivetta Rediger, who receives a diploma in public school music.

Speech Department

OLA PEARL REIST, *Instructor*

THE YEAR 1929 has registered a record of marked progress in the history of the Speech Department of Marion College. In addition to the regular class group work, attention was centered on the individual and his needs. Each member received clinical aid for the correction of speech faults, or other kindred hindrances to good speaking.

The department is encouraging debating again. It is anticipated that next year Marion College will be represented in the Indiana Intercollegiate Debating League.

Members of the Speech Department did creditable work in public programs also. Two Christmas programs were ably featured. Charles Dickens' "A Christmas Carol" was presented in interpretative reading form on December 13, and the story of the birth of Christ from Lew Wallace's "Ben Hur" on Sunday evening, December 15. The department was also represented on programs given out of town on several occasions.

As a real stimulus and encouragement to speech work in Marion College, the Music-Lecture Course Committee of the School brought to her platform, Mr. Phidelah Rice, Dean of the Leland Powers School of the Spoken Word. Mr. Rice is considered America's leading Monactor and interpreter of plays. He read W. T. Robertson's "David Garrick" a three-act comedy. Mr. Rice's exquisite portrayal of the play, and his own charming personality won him the enthusiastic approval of the people of Marion College.

The Journal
MARION COLLEGE

The Students' Conference

As SAMUEL, who became known as the "man of God", was given birth in answer to prayer so Marion College was given her inception following much intercession. Samuel was consecrated to God's service even before his birth. Likewise Marion College has been given existence for the purpose of promoting the cause of Christ. Her purpose is twofold: first, to provide a place of training for those who are called to special service; second, to furnish a shelter from the pernicious influence of modernistic tendencies. This place of refuge is not for preachers and missionaries only, but also for all young people who are training for life's work in various legitimate fields. The college further urges that every student be equipped with a personal experience of salvation which, together with the sound teaching received will make him impregnable to attacks from modernists or any other enemy, and in addition gives him some healing balm to apply to the wounds others have received from the enemy's attacks.

FRED O. HUNT, President

The Student Conference, which is composed of both faculty and student body, has charge of religious activities in Marion College. The sole purpose of the organization is to promote the cause of Christ in the school and city. Two stated services are held each week in the school. The first is the student prayer meeting, which has been richly blessed of God throughout the year. Prayers, accompanied by presistent faith, have pierced through the skies during this brief hour with Him. At the other service which is more evangelistic in nature a student, or occasionally a faculty member, preaches.

The earnestness and zeal of the students are manifested in carrying on Christian work in the city. The Sunday School at the Children's Home, superintendented by Laura Emerson, the Jail Services, led by Ivan Calhoon, the County Farm work, supervised by Gladys Altic, and the Flynn Home services under the direction of Leslie Conley have been conducted with profit to all concerned. The factory need has been presenting itself for some time but not until this year has anything definite been done to meet it. The noon hour factory service on Friday of each week is in charge of Harold Fraker; reports of victory have ben encouraging in this aggressive move.

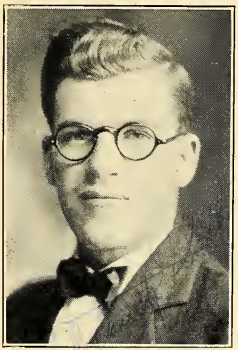
The Autumn revival with Glenn Appleman as evangelist was preceded by many seasons of prayer. The Lord surely opened the windows of heaven and poured blessings upon us without measure during the special effort.

"Surely God is in this place." We all join in bowing our heads and hearts to Him in adoration and worship for all the blessings of this year.

F. O. H. '31

Y. M. W. B.

OUR RESPONSIBILITY toward the lost of the world about us springs from two sources, subjective and objective in character. Subjectively, our love, our loyalty and gratitude to the Christ who has redeemed us and has transformed our lives, are the forces which alone give life to the soul. Objectivly, a vision of a lost soul, a knowledge of world conditions, Christ's command to "Go", and the knowledge that our message alone can meet the crying need, are powerful forces impelling the sending forth of laborers "into the harvest already white" and fast perishing for lack of reapers.



ARTHUR J. CALHOON, President

A well educated missionary spirit is positively essential to the well-being of the individual soul life. It has been the firm, and we trust unerring purpose of the missionary society of Marion College, by the help of God, to estabish the proper relationship of these two forces in the life of every student. We seek first of all the normal condition of the subjective soul life in all who are reached through her various channels. After the spiritual relations of the individual to his God have been set aright, the other phase of our purpose becomes an active and efficient means for the preparation of the gospel missionary.

As a means to this end the Young Missionary Workers' Band set apart certain times for special purposes. The weekly prayer meetings have begun at home, but have broadened until the ends of the earth have been touched by way of the Throne. The purpose of the regular monthly Sunday evening service has been the enlightenment of the public as to existing conditions among the unevangelized. At each meeting some specific phase is brought to our attention and each time we have been blessed by the manifest presence and approval of God's smile.

The annual College Missionary Convention has been the high point of achievements toward our goal. Many souls found new depths in grace, questionings were settled and calls were cleared. All were deeply stirred by the heart rending stories of the universal struggle of mankind seeking God.

It is our responsibility as Christian men and women to take the good news to all the world. Jesus Christ, in all His love and compassion, in His example of intercession and consuming zeal for the salvation of the lost world, is our example. Our task has just begun but by God's grace we believe our purpose this year has not been fruitless.

Evangelistic Workers

IN THIS DAY of modernism and forgetting God, Marion College is indeed proud of this band of Evangelistic Workers, who are maintaining the "old standards." While in training for their future work they are utilizing the opportunity of spreading the Gospel to those about them.

"Without a vision the people perish." Since this vision should include not only one's environs but also faraway lands, Marion College has endeavored to encircle the globe with her interests and prayers and at the same time not to be blinded to the whitened harvest fields at her very doors. Missionary work must begin at home, so it is the purpose of this group of loyal Christians to lay a sure foundation for greater accomplishments for their Master in the future.

Many heavy hearts have been lightened by the visitation of Marion College students to the County Infirmary, Old Ladies' Home, Childrens' Home, Jail, and shops. Although they cannot tell how much fruit these little seeds of kindness and thoughtful consideration of others will finally yield, they in nowise slacken their zeal but work more fervently in the short time which remains for service before the coming of Christ.

South Marion Booster Club

MARION COLLEGE is the outstanding institution in Marion. There are many other splendid institutions and clubs in the city but none have been more closely identified with the progress of South Marion than Marion College.

A strong reorganization of the club was effected in 1922. The club is comprised of nearly all the men who are engaged in some form of mercantile enterprise in South Marion. There are sixty or more members that are constantly on the outlook for a chance to help the progress of their community.

Their united efforts have shown what may be done by a small group of people that are united in purpose. Some of the improvements in this community brought about by united boosting are band concerts each summer season, resurfacing with cement Washington street, improving Thirty-Third street, South Adams street, repairing of grade crossings and streets, construction of storm sewer at Thirty-Third street to relieve the flooded condition in this vicinity, and the survey by the Underwriter's Association of the city to determine the needs of an adequate supply of water to lower the fire hazard.

The club has joined with the citizens of South Marion in promoting parks and beautifying their community. Bell Park at Thirty-Eighth and Washington streets is one of the beauty spots of Marion and close to Marion College.

No improvement is attracting more favorable comment than the new Boulevard lights that are placed along the College on Washington street and throughout the length of this main thoroughfare. It gives the city a truly metropolitan appearance. The turning on of the new lights was a gala night along the business section around Thirtieth street.

Recently a Good Will Tour was made by the club to the College and to the J. L. McCulloch Junior High, which proved a pleasure as well as a mutual benefit to all.

The club is endeavoring to do their part in promoting any worthwhile project in the community. They are now working on some new improvements and endeavoring to arrange for Tennis and Horseshoe Courts.

The president of the club is Mr. Ula T. Griffith, the congenial cashier of the South Marion State Bank. Mr. B. F. Howard, of Howard & Son, is the efficient secretary of the club. The directors are: E. S. Townsend, Wm. F. Fellers, Harold Shawley, B. F. Howard, Samuel Arnold, R. N. Carter, J. W. Kiser, and U. T. Griffith.

Amphictyon Literary Society

Presidents
W. EZRA DEVOL, FRED O. HUNT, C. HADLEY REED

"WHEN ONE KNOWS, he should go ahead and do," says Colonel Charles Lindbergh. His motto well expresses the aim of the Amphictyon Literary Society.

Therefore, since they know, they have proceeded this year to do. They started right by acquiring a splendid group of new members who have proved by their competent co-operation that they are worthy of the name Amphictyon. The inter-society contest for the sale of Music-Lecture course tickets brought to the Amphictyons their first victory. The next triumph won in the greatest battle ever fought in the Marionette subscription contest yielded the gratifying spoils of the largest cup ever offered in Marion College. Spurred on by achievement the Amphictyons aspired to do something really worth while. Their highest hopes were realized in a Society Banquet, attended by guests from three states. The speakers were of the most distinguished of Marion College Alumni who remembered that "Once an Amphictyon, always an Amphictyon" was still true.

This occasion served as a reminder of the high standards set by the brilliant members of the society in former years. In view of the accomplishments of this year, the Amphictyon Society looks forward to greater attainment and purposes to continue to be a doing as well as a thinking organization.

Eureka Literary Club

Presidents
H. A. ACKERMAN, NELLIE B. SHUGART, NELLE NORMAN

"THE CONSTANT DUTY of every man to his fellows is to ascertain his own powers and special gifts, and to strengthen them for the help of others." Realizing this duty the Eureka Literary Club was organized in the fall of 1920. Since then it has been enlarged until this year the enrollment reached a climax of eighty active members in addition to a goodly number of honorary members.

The purpose of the club is to fit each member for the various duties of life. Talents can only be developed by use. In the programs presented each month opportunity is given for this development. Not only do those taking part in the program derive benefit from them, but they furnish wholesome, educational entertainment for the student body and constituency.

Interest in the fine arts is increased by a fine spirit of rivalry existing between the Eureka and her sister society, the Amphictyon. Contests are engaged in which add spirit and vigor to school life.

Eureka is not fully satisfied with her past accomplishments, but she is striving for greater achievements and to add to her group those who know how to appreciate all that is fine, noble, and beautiful. With her motto "Excelsior" waving she expects to attain higher and more excellent accomplishments in Literary endeavor.

Hells Wells.

Bund Societas

JAMES ROBERTSON, *President*
WILBUR FOSTER, *Vice-President*
KATHRYN DAWSON, *Secretary*

IN THE OLDEN DAYS the Romans and the Germans were enemies, but times have changed. This year they became good friends and the Latin-German Club has closed a most successful year under the leadership of Professor Batson and the president, James Robertson.

The meetings were held once a month at the homes of the members and the year's program has included many and varied features of interest. Mother Goose Rhymes were given a la Latin, a German home scene was dramatized, there were interesting discussions concerning the merits of Latin and German, and the value of Latin was spectacularly emphasized by the appearance of Caesar's Ghost in "A Schoolboy's Dream." A talk on modern Europe by one who had not traveled there added further interest.

The final program of the year was a banquet given in truly Latin style by the Romans for their German colleagues. One might easily have imagined himself back in the days of victorious Caesar with all the pomp and splendor of old Rome.

The Fates surely were favorable to us this year so that the club may well say—"Fortuna nos adiouvabat." —N. N. '30

Le Cercle Francais

IVETTA REDIGER, *President*
CHARLES TAYLOR, *Vice-President*
LEAH MARY STUMP, *Secretary-Treasurer*

LE CERCLE FRANCAIS, otherwise known as the French Club, is one of the strongest clubs of Marion College.

This year the club presented several interesting programs. Probably the most outstanding was Le Diner de Noel. An interesting and varied program was given at which each member expressed his desire for a Christmas gift.

Miss McMichael has met her students in a social way in these programs. This has served to make the French classes more interesting. Also at the programs it has been possible for all present to forget their troubles and really enjoy themselves.

French is the most popular language of Marion College. Parlez-vous francais? Always the answer comes with pride and promptness "Oui, un peu."

The purpose of the club has been to stimulate interest in the French people, language, and customs. The spirit of the club, it is hoped, will increase from year to year.

Oh, yes, all sometimes get the "blues" after a hard verb test or exam but all good things must be obtained with effort. After the hardest storm the sun is always the brightest. Let's not give up because it seems a little hard but let's boost one hundred strong for the Le Cercle Francais and the French Department of Marion College.

Girls' Hiking Club

CLEO KINNISON, *Hiking Master*
MARGARET HODSON, *Secretary-Treasurer*
PHEBE DUNLAP, RUTH FENSTERMAKER, MABLE SUTTON, EDITH WHITEHEAD, *Captains*

IN THE FALL OF 1928 the Girls' Hiking Club was organized for the purpose of promoting healthful outdoor exercise. Since then it has been one of the most spirited clubs in Marion College. As soon as school began last fall girls started on their hundred-mile goal in order to win their "M".

Exercise is one of the important factors in life, especially in that of a student, the most part of whose time is spent either in the recitation room or in study. It invigorates the brain and enables her to do more efficient work. Without recreation the mind, is dull and incapable of doing the work it could do under the proper conditions.

The beautiful sunny days of the fall and spring were indeed tempting, and the members of the club utilized these opportunities to add a few more miles to their records. However, these vigorous girls would not limit their hikes to days of this sort, but many cold windy days found them two, four, and even five miles from their homes.

When these girls leave their Alma Mater and look with pride at the school letter they have won they will not regret their laborious efforts but will say, "It was indeed worth while!"

Philharmonique Club

MARTHA HELEN TORMOHLEN, *President*
GRACE JEAN WILLEN, *Vice-President*
EZRA DEVOL, *Secretary*

LAST FALL THE VOCAL students who have acquired a campus-wide reputation by their ever-annoying "E-O-Ah's" manifested their enthusiasm and spirit by organizing a club which proved to be a very worth while organization.

The name, "Philharmonique" which means "lovers of harmony and music," was adopted by the club as an expression of its outstanding attributes.

The purpose of the club, was twofold: to increase interest in everything in the broad field of music and to improve or increase equipment in the Department of Music.

A successful project which was launched by the club was that of presenting two student recitals each month. These were given by members of the club, assisted by instrumental numbers rendered by piano students.

The club sponsored the programs presented by the Chorus at Christmas time and as the concluding number of the Music Lecture course.

In the weekly meetings of the club, personal problems were discussed, lives of famous composers studied and various members gave short programs.

Aims for the club cannot be too high, for the members have already aspired to make possible "new music buildings, sound-proof practice rooms and bigger and better pipe-organs" for Marion College in the near future.

Chemical Research Club

LUTHER H. KIMES, JR., *President*
CLAIRE STAFFORD, *Vice-President*
LOUISE MODLIN, *Secretary-Treasurer*

TO PROMOTE A GREATER interest in the research and study of chemistry, to give inspiration to young chemists now in the making, and to contribute to the social good times of the students, such is the threefold purpose of the Chemical Research Club this year.

Although the loss of the members who have left school is keenly felt, the presence and enthusiasm of the new students, who have become members, have done much to fill their places. To welcome these new students and to initiate them into the mysteries of chemistry they were taken early in the year to Liston Falls, where they studied and greaty enjoyed the products of the combustion of a hamburger.

Later in the year factories were visited to study the practical uses of chemistry in the manufacturing world. In April a delegation attended the convention of the American Chemical Society at Indianapolis.

Thus, the 1929-1930 Chemical Research Club, furthering the work started when it first organized seven years ago, has done its bit in developing and stimulating interest in the great, unexplored regions of science.

Physical Education

SINCE THE PRESENT age is placing very great emphasis upon the development of man's physical forces, Marion College strives to give athletics its proper place. It is her purpose to guide and train the mind and the body together, not to neglect one and stress the other, but to cultivate the intellectual and the physical portion of the student's being to do team work.

Not only does systematic gymnastic training and engaging in wholesome sports keep the body in good health, but it also aids in both overcoming many undesirable traits of character, and in developing the better, such as self-control, co-operation, and other of the finer traits of the mental and moral natures.

Every one knows that to do his best in his work as a student, the physical side of education must not be neglected. Marion College is proud of the good spirit and hearty concurrence shown in its physical education work. The class work as well as the intra-mural competitions were entered with enthusiasm and co-operation.

Marion College is blessed with a splendid Gymnasium, three good tennis courts and a large baseball diamond.

Under the able directorship of Waldo Keeler, the College has had a banner year in Gymnasium work.

Basketball Tournament

THERE WERE SIX TEAMS participating in the class percentage tournament. The Academy started out in championship style taking all games until they met the fast Normal five who gave them their only defeat. The Seniors and Normals lost but one game each, thus tieing three teams for first place. The second place was held by the Sophomores, while the cellar steps were occupied by the Freshmen and Juniors respectively. The tie for first place was played off in two of the fastest games of the season. In the first game the Normals lost to the Academy 11 to 16. In the finals the Academy played the best basketball of the season defeating the Seniors 33 to 23. This left the Academy in full possession of first place, the Seniors and Normals tieing for second place and the Sophomores holding down third place. The five highest point men are as follows: Homer Hays (Academy) 60 points; Harold Moore (Senior) 55 points; Ezra DeVol (Sophomore) 42 points; Ralph Linder (Sophomore) 38 points; Thurman Morris (Freshman) 36 points.

In the Red and Black basketball tournament, the Red and Black men tied with two games each. The Red co-eds led the girl's basketball with five games to the dusky opponent's two.

" 23—Freshmen presented with green caps in chapel with compliments of the Sophomores—John Huffman wears his in Library. Rev. Appleman begins revival at College church.
" 24—Amphictyons and Eurekans start race for the Marionette Subscription Contest trophy. Ivetta's Birthday.
" 25—Harvest Day—Classes appear in flying colors—"October's Bright Blue Weather" clashes with the Freshie bonnets—rushing business done in the Dining Hall.
Nov. 1—Maudie Stephenson's birthday—huge package from Ohio.
" 4—Proof of scenic views back from engraver.
" 6—Bagnall speaks on race problems. Amphictyon present Phunyola to College at program.
" 7—Martha Mosher returns to old Triangle for visit.
" 8—C. C. C's. have shower for Burdette.
" 9—Group goes to Arcana to hear Bud Robinson.
" 11—Armistice Day Program in Chapel.
" 13—Faculty entertained by Prof. West.
" 16—Freshmen party at Teter Hall. Blacks win basketball game from Reds. 16-31. Ed Hays high point man.

Come to Marion College!

Marion College is a Christian Educational Institution of the Wesleyan Methodist Church. Its purpose is to bring to its students an opportunity to develop the highest type of moral and Christian character. It welcomes to its halls young people from all denominations or those who have no church affiliations.

DEPARTMENTS SUSTAINED

A four-year COLLEGE COURSE, with the degree A.B.

A four-year COLLEGE COURSE, with the degree B.S. in EDUCATION.

A strong THEOLOGICAL COURSE, leading to the degrees Th. B and B.D.

Excellent two-year and four-year BIBLE DIPLOMA COURSES.

A two-year course preparing teachers for a LIFE STATE LICENSE in the elementary grades, and in the primary grades.

One-year RURAL SCHOOL COURSE.

SPECIAL COURSES IN MUSIC AND ART, preparing students to teach in elementary and high schools.

The one-two, and four-year courses for the preparation of teachers are authorized and accredited by the INDIANA STATE BOARD OF EDUCATION.

In the SCHOOL OF FINE ARTS, private instruction is given in VOICE, PIANO, PIPE ORGAN, ART and EXPRESSION.

Marion College also maintains an ACADEMY with a regular four-year course. The Academy holds a regular High School Equivalency Certificate, issued by the State.

Graduates from the Academy may enter higher institutions on the same footing as those who graduate from regular commissioned high schools.

MARION COLLEGE has a good rating among other educational institutions.

Expenses are low for the opportunities offered. The academic work is high grade, the surroundings are pleasant and homelike. If you become one of us, as a student, we believe you will like us and be happy in your work.

A man in a hospital for mental cases sat fishing over a flower bed. A visitor approached, and, wishing to be affable, remarked:

"How many have you caught?"

"You're the ninth," was the reply.

Teacher: Johnny, I'm only punishing you because I love you.

Johnny: I wish I was big enough to return your love.

Everything in Music and Radio

I have just learned of an editor who started poor twenty years ago and retired with a comfortable fortune of $50,000. This was acquired through industry, economy, conscientious effort, indomitable perserverance, and the death of an uncle who left him $49,999.

Reporter: What shall I say about the two peroxide blondes who made such a fuss at the game?
Editor: Why, just say the bleachers went wild.

The Indian trail zig-zagging through the forest is now only a tradition. The white settler cleared and widened it, but scientific road building blasted hillsides to gain a mile and save half an hour. The new industrial era demanded a direct, smooth, swift, modern system of highways.

For 38 years Stafford has been a scientific annual builder. Early methods have been improved upon or discarded. Experience has blasted away trying obstacles that eat up energy and block efficient management. Make Stafford your construction engineer and enjoy the direct modern methods embodied in books bearing the phrase

"*Engraved by Stafford*"
